

Washington, D.C. 20505

31 July 1979

Dear Herman,

We are beginning to look to our autumn lecture program. I would like to follow up on our discussion of last spring of the possibility of your speaking to us. Could I propose the afternoon of Wednesday, the 14th of November? I know it is a bit far away, yet when your calendar begins to clear up at that distance let us know. We will be glad to wait.

Since last seeing you I have finished reading War and Remembrance. It is just super and very significant of your contributions to our understanding of the world in which we live. I, with many other Americans, am grateful to you.

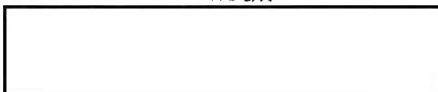

Hope we will have a chance to visit even before November. Maybe we could get you out for a luncheon with a few of our people some day when the fury of SALT dies down a bit. It has me busy right now but it is exciting and fun.

Pat joins in sending our best to you and Sarah.

Yours,

STANSFIELD TURNER

Mr. Herman Wouk
